

customRE | Custom Structured Solution

Optimized Investments in Renewable Energy

customRE solutions are tailored strategies facilitated through traditional retail supply agreements with flexible contract terms. These can involve a range of services, including:

- Small-scale investments in new renewable construction, primarily solar and wind
- Risk management of price and volume exposure for power purchase agreements
- Administration of scheduling, settlements, billing, and reporting for power purchase agreements
- Management of accounting and compliance requirements, such as Dodd-Frank record-keeping and reporting and FERC licensing, for power purchase agreements

WHO can benefit from customRE?

- Businesses with existing power purchase agreements looking to better manage annual operating budgets and total energy costs
- Companies looking to invest in renewable energy through flexible contract terms
- Customers with ranging consumption profiles (5 to 10 MW up to 100+ MW) flexible contract terms
- Customers lacking supply expertise to manage risks effectively
- Organizations with limited bandwidth for facilitating existing power purchase agreements

WHY consider customRE?

- Flexible contract terms
- Maximizes risk reduction opportunities for lowering energy costs and reducing exposure
- Optimizes financial and operational performance
- Upholds critical accounting and compliance requirements
- Simplifies complex market-based operations

Are You Creating the Economic Value You Need to Invest in Renewable Energy?

Moving away from strategies that manage price risk alone and toward solutions that optimize both price and quantity consumed enables customers to create sustainable and economic value. With ENGIE's Formula Forward, you can free cash flow to support sustainable initiatives while strengthening environmental responsibility, improving efficiency, and better managing risks.

Unlock More Opportunity with ENGIE's Formula Forward.

NOTE: In Connecticut, suppliers may not market products as "renewable energy" unless the offer is supported by an ownership in or a PPA for a renewable resource used to serve the contract. RECs may originate only from ISO-NE, New York ISO, or PJM control areas and RECs may originate only from sources designed as Class 1.
